Astro-Sol A HP

Overview

ASTRO-SOL A-HP is a medium-to-heavy duty biostatic soluble oil. This product was designed to be extended with water for the machining and grinding of virtually all metals except magnesium. This chlorine-free formulation is especially suited for aerospace and other applications which restrict the use of chlorine. ASTRO-SOL A-HP has exceptional foam control for high pressure operations and was designed using raw materials that have the ability to resist extreme biological degradation, thus providing very long sump life in a properly maintained machine tool.

Applications

ASTRO-SOL A-HP is designed for use in metalworking applications such as all CNC milling, turning, drilling, tapping, grinding and sawing applications.
